

ARYA Approved Measurers

The Australian Radio Yachting Association (ARYA) is responsible for the measurement & registration for all international and national classes of yachts recognised by the ARYA. The ARYA shall also approve and maintain a register of Approved Measurers.

To become an ARYA Approved Measurer applicants are required to:

- Be a member of a club affiliated with an ARYA Member state association
- Have a clear understanding and interpretation of the class rules for the class/es being approved and be able to demonstrate an understanding (if required)
- Provide an overview of experience (if required)
- Have an application endorsed & submitted by the ARYA Member state association

Applications for the approval of a measurer may only be submitted by a state association and be submitted online at the ARYA website (radiosailing.org.au).

The Approved Measurers register shall be available for review on the ARYA website.

Approval Process

- 1) Applications submitted by a state association will be reviewed by the ARYA Registrar.
- 2) Notification of acceptance of an application will be provided to the state association with an Approval of Measurer confirmation.
- 3) State associations will also be advised where an application is declined or further information is required to support the application.

Termination of Approval

- 1) The ARYA reserves the right to terminate an approval of an Approved Measurer at any time.
- 2) Termination of an approval may occur where an Approved Measurer fails to comply with the Measurer's Responsibilities outlined in the Approval of Measurer confirmation.
- 3) Termination of an approval may occur if an Approved Measurer ceases to remain a member of club affiliated with an ARYA Member state association for a period greater than 60 days.

Re-Approval After Termination

- 1) Requests for re-approval of an Approved Measurer shall be treated as a new approval following the approval process above.

Member State Responsibilities

- 1) State associations may nominate a 'State Measurer' as a primary point of contact for all Approved Measurers within their state. Notification of appointment or change to the appointment of a State Measurer shall be provided to the ARYA Registrar.
- 2) The state association shall communicate to the ARYA any changes in regard to the appointment of Approved Measurers in their state and from time to time review the ARYA register to ensure all listed measurers contact information or status is correct.
